**RESPONSE TO NOTICE OF NON-COMPLIANT AMENDMENT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

This amendment is submitted in response to the Communication mailed October 22, 2004 in which the response required by 37 CFR 1.121 was deemed incomplete because claims 16-25 were missing. Claims 16-25 were withdrawn from prosecution in response to the Restriction Requirement dated February 12, 2004. The claims are now included in the response and it is believed that this revised response addresses this issue. As such, it should be treated as a complete response to the outstanding office action as required by 37 CFR 1.114 and 37 CFR 1.111.

Amendments to the Claims are reflected in the listing of claims which being on page 3 of this paper.

Remarks begin on page 7 of this paper.

Atty Dkt: CISC158/3179

**RESPONSE TO RESTRICTION REQUIREMENT AND ELECTION**

In Applicants' response to restriction requirement dated April 12, 2004, Applicants elected a single species relating to bit rate conversion using requantization. The single species is claimed in claim numbers 1-15 and 26-30. The claims cover various embodiments, including embodiments described with reference to Figure 4D, 5B, and 5C.

The Examiner argues that Figures 1, 2A, 2B, 4D, 5B, 5C, and 6 are seven distinct species that can not be covered in a single set of claims. The Applicants respectfully disagree. For example, Figure 6 is not a distinct species and is merely showing one example of a router that can be used with the techniques of the present invention. Some examples described with reference to Figures 1, 2A, 2B, 4D, 5B, 5C, and 6 are merely embodiments that can be covered by a single generic claim. Consequently, Applicants respectfully submit that a single claim Group 1-15 and 26-30 has been selected. The single group selected does not pose an undue burden on the Examiner, as all the claims relate to bit rate conversion using a first requantization scheme and a second requantization scheme. Embodiments of the generic claim are described in the cited figures as well as in other figures. Applicants respectfully reserve the right to later prosecute claims 16-25.
